

How to validate the event day?

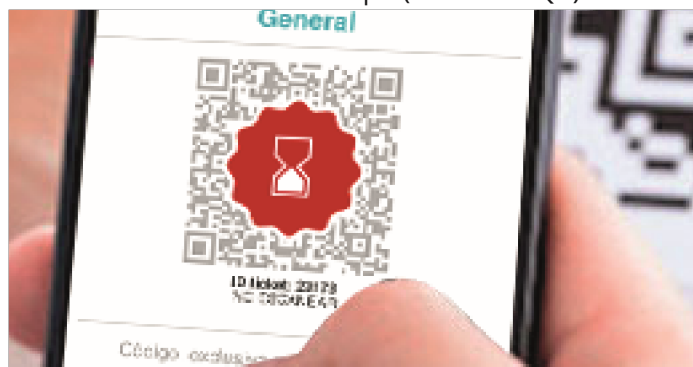

Next, we will present you with the three ways to accredit and validate eTickets on the day of your event.

QR READER

Download one of the following applications NeoReader or QR Reader on your Smartphone and scan each eTicket directly. Once the ticket has been scanned, it will be disabled for a second validation attempt. (PASSLINE QR)

eTicket Validation Successful

eTicket Validation Failed

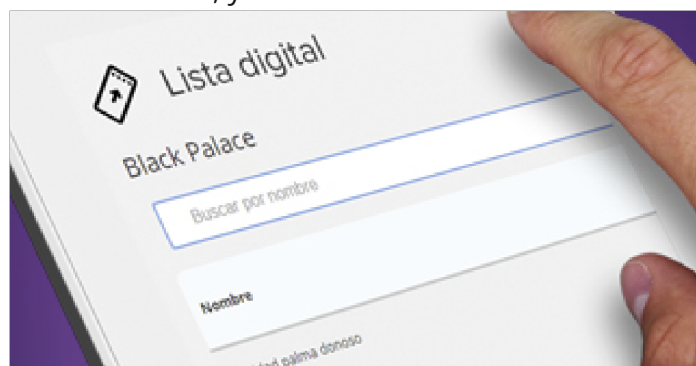

Validator Code

You only need to enter the Passline code at the entrance, which will be brought by the event assistant directly on their phone. ****This code is unique per event and will be used by authorized event personnel.***

Digital List

With this list, you can find your attendees with a quick search of their name, last name, ticket ID, etc.

****Within the list, you can validate and invalidate more than one entry at a time.***

Lista digital

¿Do you want to hire our Accreditation Service and let Passline take care of your access at the door?

If you wish, you can hire our accreditation service, and our specialized Passline team will take care of the accreditation on the day of your event.

Accredito for every 250 Attendees, Price \$300.000

* Referencial Value.
